These Model License Terms apply in addition to our standard terms of business ("**Standard Terms**") available at www.honeag.com/documents for customers who elect to publish a Model to the Hone Store for commercialisation in accordance with this Model License.

These Model License Terms are deemed to incorporate by reference any additional terms contained in the documents referred herein, including the Standard Terms, our Model Development Guidelines as developed from time to time (available at www.honeag.com/documents), user guides, instructions and other documentation that we produce in respect of our Products and Services ("**Documentation**") and our privacy policy available at www.honeag.com/documents. In the event of any inconsistency between the Model License Terms and the Standard Terms, the Model License Terms prevail.

These Model License Terms are binding on any use of Hone Products and Services and apply to you from the earlier of (a) acceptance of an Order Confirmation by us for your use of the Products or Services as a Model Provider; (b) acceptance by you of these Model License Terms through our website or the Products and Services, or (c) the time that we commence delivery of, or otherwise provide you with access to, the Products and Services as a Model Provider.

By agreeing to these terms you acknowledge and represent that you have the authority to act on behalf of any person for whom you are acting. If you are agreeing to these terms as an individual "**you**" refers to you individually. If you are agreeing to these terms as a representative of an entity, you represent that you have the authority to bind that entity and "**you**" refers to that entity. 1. MODEL PROVIDER REQUIREMENTS

Hone Create users build Models by uploading Reference Data such as lab chemistry data and matched Multivariate Data such as spectral data. As a Model Provider, you are encouraged to contribute high quality Models that are fit-for-purpose in order to maintain the reputation of Hone, ensure a positive experience for users of your Model and maximise your royalties.

- (a) **Model Provider Requirements.** As a Model Provider you must provide information about your Model to allow Hone to assess the quality of the Model and make a decision as to whether it will be published to the Hone Store. At a minimum, Hone will require the Model Provider to warrant that:
- (i) A minimum of 500 experimental samples were used to generate the Model and a further 50 experimental samples will be provided for each corresponding calendar year after a Model is first built in order to be assessed for release and maintained as a public Model by Hone.
 - (ii) Each experimental sample uploaded must comprise matched Reference Data and Multivariate Data. "**Reference Data**" and "**Multivariate Data**" such as lab chemistry data and spectral data, respectively, must be obtained using relevant, gold standard technical measures and equipment and comply with any of our

required protocols, in each case as set out from time to time in the Model Development Documentation.

- (iii) A report on Model operational bounds including sample type, sample locations, instrument type and test procedure.
- (iv) A Model metrics report as defined by Hone.
- (v) A reproducibility report must be generated and submitted.
- (vi) A statement outlining the use-case and that the Model is fit-for-purpose must also be provided.

The Model Provider warrants that the supplied data is true and without omission, defect or deficiencies.

- (b) **Royalties.** In return for a license for Hone to commercialise your Model, a 10% royalty on gross revenue (not including GST) generated directly from the sale of your licensed Model will be payable to you quarterly in arrears following confirmation of applicable revenue received by us relating to Models which you have contributed data to. Any amounts owing by you to us will be offset from royalties owing to you. Recoupable Expenses for the maintenance will also be offset from any royalties payable to you.
- (c) **Hone Support.** You will use commercially reasonable efforts to provide telephone, web-based and/or email support to Hone regarding your Model while it is made available on the Hone Store. You will provide to us a current email address to which we may direct inquiries. At a minimum you agree to respond within 24 hours to any support request that we identify as critical, and in all other cases within five business days of the request.
- (d) No certainty. Your publishing of a Model does not guarantee that Hone will elect to or be capable of commercialising that Model, or that your Model will be launched and hosted on the Hone Store. Hone retains the sole discretion as to what Models it hosts. Model metrics will be determined by Hone over time and set out in the Model Development Guidelines. These metrics and the assessment of performance of Models against them regularly will form the basis for assessing the success of a Model and will support Hone's decisions regarding what Models it launches and hosts and what Models it removes. These metrics may be subject to change.
